

GHANSHYAM JADHAV

Frontend Developer · React.js · JavaScript · Redux · REST APIs

✉ jadhavshyam08@gmail.com ✉ 09604134538 ✉ Pune, India ✉ [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, production-grade web applications using React.js, JavaScript (ES6+), HTML5, CSS3, and Redux Toolkit. Skilled in REST API integration with Axios, form handling with Formik, and SPA routing with React Router. Experienced with Vite/Webpack build tools, Git version control, and Jest for unit testing. Demonstrated ability to write TypeScript in production, achieve 95+ Lighthouse performance scores, and deploy via CI/CD pipelines (GitHub Actions). Comfortable collaborating in Agile teams with designers and backend developers to ship clean, scalable UI.

TECHNICAL SKILLS

Frontend	React.js · JavaScript ES6+ · Angular · Next.js · HTML5 · CSS3 · Redux Toolkit · TypeScript · Bootstrap · Tailwind CSS · Material UI · Webpack / Vite · React Router · Formik · Axios · jQuery
Backend & DB	C# · ASP.NET Core · Node.js · Express.js · PHP · REST APIs · MySQL · MongoDB · Socket.io
Tools	Git / GitHub · Jest / Mocha · CI/CD (GitHub Actions) · Agile / Scrum · Browser DevTools

WORK EXPERIENCE

Web Developer

Abhi Impact Logistics Solutions · Mar 2025 – Apr 2026 · Baner, Pune · [impact-logistics.in](#)

- Designed and developed a full-stack logistics web application from scratch using React-based component architecture with HTML5, CSS3, JavaScript (ES6+), Bootstrap, and jQuery — delivering a fully responsive, cross-browser frontend.
- Built and integrated a REST API-driven backend using PHP and MySQL, enabling seamless data flow between frontend UI and server-side logic.
- Implemented a real-time email notification system via PHPMailer, enhancing user communication and shipment update workflows.
- Developed a custom transportation tracking module enabling real-time shipment monitoring — improving operational transparency and UX.
- Collaborated cross-functionally with stakeholders to gather requirements, translate into technical specs, and deliver production-ready features within Agile sprint cycles.
- Performed browser-based debugging and performance optimization, resolving critical frontend issues and reducing page load times.

Live Projects Delivered

- Abhi Impact Logistics:** <https://impact-logistics.in> — Full-stack logistics platform with real-time shipment tracking, PHPMailer email notifications. Built with React, PHP, MySQL.
- Ash Logistics:** <https://ash-logistics.com> — Corporate website for a 3PL and supply chain company with service listings, leadership pages, and lead generation forms.
- Abhi Realty & Infra:** <https://abhirealty.com> — Professional multi-section site for an infrastructure company covering highways, urban infra, and industrial project portfolios.
- Abhi Charitable Foundation:** <https://abhicharitable.com> — Responsive NGO website covering organ donation, education, and healthcare causes with volunteer and donation inquiry workflows.
- Art of Language:** <https://artoflanguage.in> — Multi-page responsive website for a German language institute in Pune, covering A1–C1 courses and enquiry/contact forms.

PERSONAL PROJECTS

AI SaaS Chatbot | [MERN Stack](#) · [TypeScript](#) · [Advanced Authentication](#)

- ▶ Built a full-stack AI-powered SaaS chatbot application using the MERN stack (MongoDB, Express.js, React, Node.js) with TypeScript throughout.
- ▶ Implemented advanced authentication using JWT tokens with HTTP-only cookies, bcrypt password hashing, route guards, and protected API endpoints for secure multi-user access.
- ▶ Integrated the OpenAI API to enable real-time conversational AI responses with per-user chat session persistence stored in MongoDB.
- ▶ Designed a responsive React frontend with a polished chat UI, message streaming support, and user session management including conversation history and delete functionality.
- ▶ Engineered a RESTful Node.js/Express backend with TypeScript-strict typing, middleware for auth validation, and rate limiting for API protection.

Habit Tracker App | [React.js](#) · [Redux Toolkit](#) · [Vite](#) · [TypeScript](#)

- ▶ Built a performant Habit Tracker SPA using React.js, Redux Toolkit for centralized state management, and Vite for optimized build performance.
- ▶ Implemented full CRUD functionality for daily habits with persistent state handling and clean, component-driven UI architecture.
- ▶ Written in TypeScript with strict typing for components and Redux store — focused on modular design and scalable frontend patterns.

Online Shopping Application | [React.js](#) · [Redux](#) · [Axios](#) · [Formik](#) · [Bootstrap](#) · [Material UI](#) · [React Router](#)

- ▶ Developed a feature-rich e-commerce frontend with product browse, filter/sort, and dynamic shopping cart — leveraging React with Redux for state management.
- ▶ Integrated Axios for REST API calls, Formik for form validation, React Router for SPA navigation, and Material UI/Bootstrap for a polished, accessible UI.
- ▶ Implemented UI design principles focused on intuitive UX, performance, and cross-browser compatibility.

Real-Time Chat Application | [React.js](#) · [Node.js](#) · [Socket.io](#) · [MongoDB](#) · [Redux Toolkit](#) · [TypeScript](#) · [Tailwind CSS](#)

- ▶ Built a real-time chat app supporting one-on-one and group conversations using Socket.io for bi-directional WebSocket communication.
- ▶ Implemented online presence, typing indicators, read receipts, and chat history persistence with MongoDB and indexed queries.

EDUCATION

M.Sc. Bioinformatics · MGM's College of CS & IT, Nanded, Maharashtra · 2018 – 2020

CERTIFICATIONS

- ▶ **JavaScript Algorithms and Data Structures Masterclass** — Udemy
- ▶ **Full-Stack Web Development Certification** — Naresh i Technologies, Hyderabad (Jun 2023 – Dec 2023). Comprehensive training in React, HTML5, CSS3, JavaScript, Node.js, PHP, MySQL.
